Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Specification

1. The abstract of the disclosure is objected to because the phrase "The invention relates to" in line 1 should be deleted. Correction is required. See MPEP § 608.01(b).

2. The disclosure is objected to because of the following informalities: Any reference to claim 1 in the specification should be deleted.

Appropriate correction is required.

Claim Rejections - 35 USC § 112

3. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

4. Claim 4 is rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the enablement requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to enable one skilled in the art to which it pertains, or with which it is most nearly connected, to make and/or use the invention. The specification does not describe in anyway the control device having a drive for displacing the cutting elements. Therefore, this claim will not be further treated on the merits.

Claim Rejections - 35 USC § 102

5. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

6. Claims 1-3 and 5-11 are rejected under 35 U.S.C. 102(b) as being anticipated by Smith et al. 4,120,106.

Discloses a cutting device including:

- a cutting wheel (58)
- first cutting elements (108) for removing soil when the wheel is rotated in a first rotation direction
- second cutting elements (106) for removing soil when the wheel is rotated in a second rotation direction
- a control device (60) for displacing the cutting between a soil removing position and retracted position

Regarding claims 2-3 and 5, the first and second cutting elements are displaceable simultaneously by a force exerted by moving the device against the ground.

Regarding claims 6-8, the control device is a pivoted lever (60) that has a pivot axis (pivot pin 110) and is symmetrical about the pivot axis (Fig. 4).

Regarding claim 9, there is a pair of cutting elements on each pivoted lever (Fig. 4).

Regarding claim 10, the pivoted lever has stops (120, 118).

Art Unit: 3671

Regarding claim 11, the cutting elements have cutting edges (Fig. 4).

Conclusion

1. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
2. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Meredith C Petravick whose telephone number is 703-305-0047. The examiner can normally be reached on M-T 8:00 a.m.- 5:00 p.m..
